

TECHNICAL RECERTIFICATION CERTIFICATE

Certificate Information

Certificate No.: FA-REC-2026-001

Date Issued: May 00, 2026

Issued By: Frontics America, Inc.

Location: 1699 Wall St. Suite 211, Mount Prospect, IL, 60056

Equipment Information

Equipment Type: AIS System

Model: _____

Serial Number: _____

Software Version: _____ / **Firmware Version:** _____

Service Scope

The above referenced equipment has undergone a technical recertification process performed by Frontics America.

The recertification process included the following:

- System inspection and diagnostic evaluation
- Calibration verification and performance validation
- Hardware / Software / Firmware condition assessment
- Functional and operational performance verification
- Preventive maintenance inspection
- Verification of current operating standards and software compatibility
- Inspection for unauthorized modification or component replacement

Evaluation Result

Based on the inspection and verification activities performed, the system was confirmed to be operating within Frontics America service and operational standards at the time of evaluation.

This certification confirms that the equipment successfully completed the recertification process described above.

Notes / Limitations

- This certification applies only to the condition of the equipment at the time of inspection.
- Future performance may be affected by handling, storage, transportation, environmental conditions, maintenance practices, or unauthorized modifications.
- Additional repairs or replacement components, if required, may be quoted separately.

Title: _____

Signature: _____

Frontics America

Technical Support Eligibility

Official technical support, calibration-related consultation, software/firmware update assistance, and service support eligibility are provided only for systems that have successfully completed the Frontics America recertification and evaluation process.

Units obtained through third-party sales channels or non-authorized distribution sources may require recertification prior to receiving official technical support services.

Frontics America reserves the right to limit or deny technical support for systems that have not completed the required inspection and recertification process.
